HEXAGONE
SPORT ROBOTICS

PEPS, the battery or sector-powered scraper robot

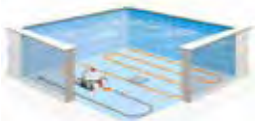
AUTONOMOUS NAVIGATION SYSTEM

Optimal trajectory

Metro NAV inside

45 min to clean a 25 m swimming pool.
• Equipped with infrared for detection and a gyroscope for movement.
• For flat or gently sloping pools 20° max.
• For all types of coverings (liner, tiles, concrete, stainless steel, etc.).
Technology guaranteed for regular and complete coverage.

Classic Metro Nav



Systematic parallel lines yex001n00 (optional)

CONFIGURATOR

Trolleys

3 models.

Dispenser trolley

Battery Trolley

Optional reel trolley

Filters

75 microns	Fine filtration	f00001n001-0075
105 microns (delivered as standard)	Classic filtration	f00001n001-0105
250 microns	Filtration for exteriors	f00001n001-0250
1000 microns	Filtration for restart	f00001n001-1000

75 microns

105 microns

250 microns

1000 microns

24V BATTERY SELF-FLOATING

IP44 waterproof touch screen

HUMAN INTERFACE/ TOUCH MACHINE

Self-floating cable 5m

75, 105, 250 or 1000 µ filters

Stainless steel trolley structure

Long range radio control floating, waterproof and shockproof

ROTATIVE BRUSH FOR DEINCRUISING

• **Cleaning speed:** 10 to 12 m/min
• **Suction power:** 37m³/h
• **Infrared:** yes, wall detection

E-PEPS 200

Pool length	Up to 25 m
Cleaning width	40 cm
Filtration capacity	4 kg of sand
Weight out of water/in water	14 kg/ 2 kg
Battery (autonomy)	3h30' - Charge 3h
Trolley	Stainless steel (provided)
Power supply	With battery
Reference	xypeps200bt

E-PEPS 300 XL

Pool length	From 25 to 50 m
Cleaning width	60 cm
Filtration capacity	4 kg of sand
Weight out of water/in water	17 kg/ 3 kg
Battery (autonomy)	3h30' - Charge 3h
Trolley	Stainless steel (provided
Power supply	With battery
Reference	xypeps300bt
